

FEATURE COMPARISON

Product Feature Comparison Sheet between AgencyIntegrator™ vs. Competitor

		AgencyIntegrator	Competitor
FEATURE	DESCRIPTION		
Carrier Feeds and Configuration	Backed by data from more than 30* carriers, this AMS solution provides constant updates on case details – such as pending status, commissions, licensing, appointments, and inforce data.		
Paramed and APS Vendor Integrations	Effortlessly request paramed exams or Attending Physician Statements (APSs) directly from the case, eliminating the need for redundant data entry.	 Integrates with 21* paramed and APS vendors	 Fewer paramed partners
Integrates with iGO® e-App and DocFast®	Seamlessly integrates with iPipeline's iGO, an industry leading e-Application solution, to streamline the process and significantly cut down on data entry time through automatically generating and approving cases. Access the status history of a policy delivered electronically via DocFast by accessing the corresponding case in AgencyIntegrator.		
Product Design Provides Smooth Case Management	Provides smooth case management workflows and communication for BGAs, ensuring precision through an in-depth understanding of carrier rules and underwriting requirements.		 Minimal analytics capabilities
Powerful Case Analytics Insights with InsureSight®	Tailored for agents, case managers, and carriers to provide robust and efficient insights to empower decision-making. Offers pre-built dashboards to highlight case trends, cycle times, and more.		 Minimal data-sharing access
